

Summary Public Assessment Report

Calcium/Cholecalciferol Theramex (calcium carbonate, cholecalciferol)

SE/H/2261/01/DC

Summary Public Assessment Report

Calcium/Cholecalciferol Theramex
calcium carbonate, cholecalciferol (vitamin D3)
Chewable tablet, 500 mg/2000 IE

This is a summary of the public assessment report (PAR) for Calcium/Cholecalciferol Theramex. It explains how the assessment was made and why the authorisation was recommended as well as the conditions of use. It is not intended to provide practical advice on how to use the product.

For practical information about the use of the product, patients should read the package leaflet or contact their doctor or pharmacist.

What is Calcium/Cholecalciferol Theramex and what is it used for?

The product is a medicine with 'well-established use'. This means that the medicinal use of the active substance of the product is well established in the European Union for at least ten years, with recognised efficacy and an acceptable level of safety.

The product is a calcium-vitamin D3-supplement and is used to treat lack of calcium and vitamin D in adults.

How does Calcium/Cholecalciferol Theramex work?

The product is a supplement and adds calcium-vitamin D3 in adults who lack these substances.

How is Calcium/Cholecalciferol Theramex used?

The pharmaceutical form is chewable tablet for oral use.

Please read section 3 of the package leaflet for detailed information on dosing recommendations, the route of administration, and the duration of treatment.

The medicine can only be obtained with a prescription in Sweden.

What benefits of Calcium/Cholecalciferol Theramex have been shown in studies?

As calcium carbonate and cholecalciferol (vitamin D3) are well-known substances, and their use in the treatment of lack of calcium and vitamin D in adults are well established, the applicant presented data from the scientific literature. The literature provided confirmed the efficacy and safety of calcium carbonate and cholecalciferol (vitamin D3) in the treatment of the above-mentioned indication.

What are the possible side effects from Calcium/Cholecalciferol Theramex?

For the full list of side effects, see section 4 of the package leaflet.

For the full list of restrictions, see the package leaflet.

Why is Calcium/Cholecalciferol Theramex approved?

The Swedish Medical Products Agency decided that the benefits are greater than its risks and recommended that it can be approved for use.

What measures are being taken to ensure the safe and effective use of Calcium/Cholecalciferol Theramex?

A risk management plan has been developed to ensure that the product is used as safely as possible. Based on this plan, safety information has been included in the summary of product characteristics and the package leaflet, including the appropriate precautions to be followed by healthcare professionals and patients.

Known side effects are continuously monitored. Furthermore, new safety signals reported by patients/healthcare professionals will be monitored/reviewed continuously as well.
