

Package leaflet: Information for the user

Karbamid Evolan 50 mg/g cream

Urea

Read all of this leaflet carefully before you start using this medicine because it contains important information for you.

Always use this medicine exactly as described in this leaflet or as your doctor, pharmacist or nurse have told you.

- Keep this leaflet. You may need to read it again.
- Ask your pharmacist if you need more information or advice.
- If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in this leaflet. See section 4.
- You must talk to a doctor if you do not feel better or if you feel worse.

What is in this leaflet

1. What Karbamid Evolan is and what it is used for
2. What you need to know before you use Karbamid Evolan
3. How to use Karbamid Evolan
4. Possible side effects
5. How to store Karbamid Evolan
6. Contents of the pack and other information

1. What Karbamid Evolan is and what it is used for

Karbamid Evolan is a white emollient cream containing 5 % urea. The water-binding ability of urea contributes to normalization of dry skin.

Karbamid Evolan is used to moisturise dry skin of different origin and to prevent relapses of atopic eczema.

2. What you need to know before you use Karbamid Evolan

Do not use Karbamid Evolan

- if you are allergic to urea or any of the other ingredients of this medicine (listed in section 6).

Warnings and precautions

- Avoid application into eyes, nose, ears or to open wounds or mucous membranes.

Pregnancy and breast-feeding

Karbamid Evolan can be used during pregnancy and breast-feeding.

Driving and using machines

Karbamid Evolan has no effect on the ability to drive or use machines.

Karbamid Evolan contains ethyl and methyl parahydroxybenzoate, cetostearyl alcohol and propylene glycol

Ethyl and methyl parahydroxybenzoate may cause allergic reactions (possibly delayed).

Cetostearyl alcohol may cause local skin reactions (e.g. contact dermatitis). This medicine contains 50 mg propylene glycol in each gram. Propylene glycol may cause skin irritation. Do not use this medicine in babies less than 4 weeks old with open wounds or large areas of broken or damaged skin (such as burns) without talking to your doctor or pharmacist.

3. How to use Karbamid Evolan

Always use this medicine exactly as described in this leaflet or as your doctor, pharmacist or nurse have told you. Check with your doctor, pharmacist or nurse if you are not sure.

For moisturising dry skin of different origin:

The cream should be applied when needed, preferably several times daily, and always after contact with water. Apply as much as the skin can absorb without feeling sticky.

For prevention of relapses of atopic eczema:

Apply at least twice daily and preferably after contact with water.

4. Possible side effects

Like all medicines, this medicine can cause side effects, although not everybody gets them.

Common (experienced by more than 1 out of 100 users):

The cream can give transient, local sensation of burning and heat. The face is most sensitive.

Reporting of side effects

If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in this leaflet. You can also report side effects directly via **the national reporting system** listed in [Appendix V](#).* By reporting side effects you can help provide more information on the safety of this medicine.

5. How to store Karbamid Evolan

Keep this medicine out of the sight and reach of children.

Store below 25°C.

Do not use this medicine after the expiry date which is stated on the packaging. The expiry date refers to the last day of that month.

Do not throw away any medicines via wastewater or household waste. Ask your pharmacist how to throw away medicines you no longer use. These measures will help protect the environment.

6. Contents of the pack and other information
